Product: **Perforated Metal**

Pattern: **Leaf**

Inspired by nature, our **Leaf** pattern brings a sense of organic elegance to any space. Featuring graceful leaf silhouettes across a finely perforated surface, this design offers both aesthetic appeal and functional performance.

Ideal for architectural facades, decorative screens, and interior accents, Leaf delivers a perfect balance of light, shade, and texture.

This pattern can be customised for your project specification.

Customisation options:

- **Design scale:** Increase or decrease the pattern, depending on panel size
- **Hole size:** Enlarge or reduce the perforations to achieve the required open area percentage
- **Finishes:** Add a finish, from powder-coated colour to special coatings that increase longevity and weather resistance.
